Subject	Number	Percent
Occupied housing units	7,498	100.0%
Owner-occupied housing units	6,784	90.5%
Population in owner-occupied housing units	20,471	(X)
Average household size of owner-occupied units	3.02	(X)
Renter-occupied housing units	714	9.5%
Population in renter-occupied housing units	1,469	(X)
Average household size of renter-occupied units	2.06	(X)

Notes:

{x} = Not applicable

{8} - The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only", and vacant units that have been sold but not yet occupied; and then multiplying by 100.

{9} - The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of the renter-occupied units, vacant units that are "for rent", and vacant units that have been rented but not yet occupied; and the multiplying by 100.
