

Summary Narrative of Adjustment 2 to the FFY 2018-2022 Transportation Improvement Program for the Northern Middlesex Region:

The following is a summary of administrative adjustment 2 to the FFY 2018-2022 Transportation Improvement Program (TIP). The TIP is a federally mandated document that programs federal transportation funding for the region.

Adjustment 2 involves a description change to project 607995, Stormwater Improvements along I-495. Originally, this project was listed solely in the State Transportation Improvement Program (STIP) because the scope included multiple MPOs. The scope has been changed and the project limits are now only in the Northern Middlesex region, Chelmsford and Lowell. The project cost estimate is now \$1,679,827 and uses non-target statewide transportation enhancements funding. This adjustment is necessary for this project to move into the construction phase in FFY 2018.

	Project ID	Project Description	Programmed STIP Year	Funding Source	Total Cost Estimate	Federal	State
Current Scenario	607995	Lowell-Chelmsford-Andover Stormwater Improvements along Route 28 and I-495	2018	STP-TE	\$ 2,160,000	\$ 1,728,000	\$ 432,000
Adjusted Scenario	607995	Lowell-Chelmsford Stormwater Improvements along I-495	2018	STP-TE	\$ 1,679,827	\$ 1,343,862	\$ 335,965
